

**Memorandum of Agreement  
Compensation for Participation in Summer Orientation**

The following understanding has been reached between the Stockton Federation of Teachers (SFT) and Stockton University ("University").

During the months of July and August, faculty assist in the orientation and registration of new students. This work consists of speaking to groups of students about the curriculum and academic requirements and policies, advising small groups and individual students regarding course selection, and assisting individual students with the registration process.

The University will compensate these faculty members with a payment of 0.105 TCH at the senior rate per orientation session, normally held once/day. If there are two or more orientation sessions held on a single calendar day, faculty will be compensated separately for each session.

This applies to the orientation program for new freshmen and transfers held after commencement, in July and August, and also to any Fall Pre-term orientation days that occur prior to September 1<sup>st</sup>.
