

University Pcard Guidelines

Pcards can be issued to Stockton employees to purchase merchandise within these guidelines and approved travel-related expenses. Departments can request a Chartwells only card which will eliminate the limit thresholds.

Pcard Types: standard set limit cards or requesting funds cards.

Pcard Use Types: purchase of goods and travel-related purchases. Travelers are required to have a fully approved Chrome River Pre-Approval report prior to incurring expenses. Employees who have a Pcard issued in their name are not authorized to charge the department Pcard for their individual travel related expenses.

A welcome email from Bank of America will be sent to you with your username and access information to the BOA WORKS program for card activity.

Pcard Limits

Single purchases are limited to \$3,500 per transaction. A transaction includes the purchase price plus any associated freight.

A transaction may not be split to divide larger purchases which would go over the cardholder's single purchase limit. For example, a cardholder may not make two separate transactions with the same vendor in order to bypass transaction limits, which would total an amount over the single purchase limit of \$3,500. Split transactions will result in suspension or cancellation of card privileges.

Merchandise that requires any type of installation is considered a service and requires contractual documentation; therefore, the use of the Pcard is prohibited for these types of transactions.

The University is responsible to stay compliant with State, Federal laws and regulations as well as Stockton policies. At times vendors may be placed on the restricted list until we have required documentation for continued use for purchases.

Use of the Card

- Purchases are for official Stockton University business only. The employee listed on the card is responsible for the control and use of the card. Department cards are to be handled in the same manner as individual cards with controls and use.
