

Mid-Atlantic Conference on Personalized Learning

February 29th to March 2nd, 2016

Baltimore Marriott Waterfront,
Baltimore, MD

The Mid-Atlantic Conference on Personalized Learning (MACPL) offers a unique chance to learn the latest in innovative instructional practices and lesson design directly from practitioners.

- How can personalized learning help at-risk and special needs students to succeed?
- How does competency-based progression in the classroom or school function?
- What new technological innovations will impact my future classroom?

Learn about these and other topics from nationally-known speakers and regional experts by attending MACPL. The full conference program begins Monday, February 29th at 5:00 pm, and concludes in the early afternoon of Wednesday, March 2nd. Click [here](#) or visit www.caiu.org/macpl for more information.

The cost to register for the full conference is \$395. However, we are excited to announce a **special opportunity** for students pursuing an education degree! Through the generous support of Fishtree, Inc, undergraduate and graduate students are eligible for a **single day registration at the reduced rate of \$75**. This special rate provides access to all breakout sessions, the lunchtime plenary, the exhibit area, and includes breakfast, lunch, and two refreshment breaks on March 1st.

Register now as this special rate is limited to the first 50 registrants. Contact Sally Mentzer at smentzer@caiu.org for special registration instructions. **In order to qualify for this reduced registration rate, students must be enrolled in an education preparation or degree program and must possess and use a valid university/college email address when registering.** Students may pay by personal check or by credit card only. Credit card payments are subject to a \$15 convenience fee. Payment by personal check must be received by the 10th of February or the registration will be cancelled.

 **fishtree** *Fishtree's award-winning, adaptive learning platform is focused around empowering educators, engaging students and creating a collaborative community of learning. Through the use of powerful analytics, personalization engines, and collaboration features, we help deliver the most effective education solutions. At Fishtree, we believe in the power of personalized learning as the most effective tool for unlocking student potential. For more information visit www.fishtree.com.*
