# 2012 Survey

- Faculty Senate Task Force
  - Convened after 5 years of IDEA use.
- Goal of the Task Force
  - Gauge faculty satisfaction with the IDEA instrument for the purpose of improving teaching and learning.

STOCKTON

# 2012 Survey: Recommendations

- Continue using the IDEA instrument to provide data for teaching portfolios.
- The IDEA data should contribute no more than 30% of the teaching portfolio.
- Increase knowledge of how to interpret IDEA statistics by increasing participation by faculty and administrators in IFD workshops.
- Review the IDEA instrument again in five years.

STOCKTON

# 2016 Survey: Motivation

- Follow up five years after the IDEA Task Force in 2012.
- Gather faculty input on changes to instruments by the IDEA Center scheduled for fall 2016.
- Conduct a survey prior to when the [MOA Regarding Use of IDEA and Small Class Instruments for Student Evaluation of Teaching](#) might be revisited.

# 2016 Survey: Method

The survey team created and administered a survey sent to all 612 teaching faculty this fall that:

- Repeated questions on the 2012 survey.
- Added questions related to:
  - Moving to fully online administration.
  - Planned changes to IDEA objectives.
  - Two new, shorter IDEA instruments becoming available.
- 232 responses, a 38% response rate.

STOCKTON

# 2016 Survey: Results

IDEA instrument provides a useful component  
for teaching portfolios

	2012 (N= 190)	2016 (N= 232)
Agree	34% (N = 65)	68% (N = 158)
Neutral	30% (N = 57)	12% (N = 28)
Disagree	36% (N = 68)	20% (N = 46)

# 2016 Survey: Results

The IDEA instrument helps to improve teaching

	2012 (N = 176)	2016 (N = 232)
Agree	28% (N = 54)	58% (N = 136)
Neutral	28% (N = 54)	18% (N = 41)
Disagree	44% (N = 68)	24% (N = 55)

# 2016 Survey: Online Delivery

The IDEA Center plans to move to fully online delivery and reporting of its survey instrument in 2016. What are your concerns with fully online administration of surveys? Please select one of the following choices.

# 2016 Survey: Online Delivery

Answer	Percentage	Count
I am not opposed to online delivery of surveys; however, I am concerned that online delivery of surveys will result in lower response rates.	45.85%	105
I support online delivery of surveys because online delivery allows students greater access and opportunity to take surveys.	13.54%	31
Although I would rather not have online survey delivery, students might prefer it.	2.62%	6
I would support online delivery of surveys if it was possible to deliver survey prompts in Blackboard courses, rather than through emails.	6.11%	14
I would support online delivery of surveys in a face-to-face environment.	12.23%	28
I absolutely disapprove of online delivery of surveys under all circumstances.	10.48%	24
Total	100%	229

# Survey Results: Online Delivery Comments

- Concern for reduced response rates. (15)
- Concerns that student will be biased towards faculty when completing surveys online. (4)
- Reduced ratings/scores for faculty. (3)
- Concerns with time lost administering online delivery of instrument in person. (2)
- Desire to have choice between online or face-to-face administration. (2)

# 2016 Survey: F2F Administration

If you had the ability to administer the IDEA survey online but in a face-to-face environment, would you consider that comparable to paper survey administration?

# 2016 Survey: F2F Administration

Answer	Percentage	Count
Yes	68.16%	152
No	30.94%	69
Total	100%	223

STOCKTON

STOCKTON  
UNIVERSITY

[www.stockton.edu](http://www.stockton.edu)

# Survey Results: F2F Administration Comments

- Inconvenient and time consuming. (7)
- Comparable if administered during class time. (4)
- Concerns for reduction in response rates. (3)
- Concerns for reduction in qualitative responses. (3)
- Administration method should mirror teaching modality. (2)

STOCKTON

STOCKTON  
UNIVERSITY

[www.stockton.edu](http://www.stockton.edu)

# 2016 Survey: New Objectives

IDEA 2 will include additional learning objectives for “diverse perspectives and global awareness,” “ethical reasoning and decision making,” “civic engagement,” and “quantitative literacy.”

Do you think the new objectives are positive additions to the IDEA survey instrument?

# 2016 Survey: New Objectives

Answer	Percentage	Count
Yes	66.08%	150
No	30.40%	69
Total	100%	227

STOCKTON

STOCKTON  
UNIVERSITY

[www.stockton.edu](http://www.stockton.edu)

# Survey Results: New Objectives Comments

- Not relevant and/or measurable to my course or course objectives. (11)
- Students may not understand meaning/application of new objectives. (10)
- Misunderstanding that new objectives extend length of survey. (7)
- Concern with interpretation of scores by peers, FRC, administrators. (3)
- Not useful. (7)

# 2016 Survey: Learning vs. Teaching

The IDEA Center has created two shorter, additional survey instruments. One contains questions related to student learning (Learning Essentials Instrument) and the other contains questions related to pedagogy (Teaching Essentials Instrument). Both shorter instruments retain the questions regarding excellent teacher and excellent course.

Do you feel that one of the shorter instruments would be preferable to the longer instrument?

# 2016 Survey: Learning vs. Teaching

Answer	Percentage	Count
Yes	62.50%	140
No	34.38%	77
Total	100%	224

STOCKTON

STOCKTON  
UNIVERSITY

[www.stockton.edu](http://www.stockton.edu)

# 2016 Survey: Shorter Instrument

If you would prefer one of the shorter instruments, which one would you prefer?

# 2016 Survey: Shorter Instrument

Answer	Percentage	Count
Learning Essentials Instrument	56.08%	83
Teaching Essentials Instrument	34.46%	51
No Instrument Preference	9.46%	14
Total	100%	148

STOCKTON

STOCKTON  
UNIVERSITY

[www.stockton.edu](http://www.stockton.edu)

# Survey Results: Shorter Instrument Comments

- The focus should be on student learning. (20)
- The focus should be on teaching. (10)
- Utilize either instrument based on need. (8)
- Students may not be able to accurately assess either. (6)
- Need to see instruments. (4)

# 2016 Survey: Small Class

Would you recommend that Stockton continue using the Small Class Instrument for classes with less than 15 students?

STOCKTON

STOCKTON  
UNIVERSITY

[www.stockton.edu](http://www.stockton.edu)

# 2016 Survey: Small Class

Answer	Percentage	Count
Yes	68.72%	145
No	23.70%	50
Total	100%	211

STOCKTON

STOCKTON  
UNIVERSITY

[www.stockton.edu](http://www.stockton.edu)

# Survey Results: Small Class Comments

- Does not provide meaningful or useful feedback. (8)
- Provides more meaningful feedback than IDEA. (5)
- Use one instrument for all surveys. (4)

STOCKTON

STOCKTON  
UNIVERSITY

[www.stockton.edu](http://www.stockton.edu)

# Additional Overall Concerns

- Response rate
  - Improve if online delivery loaded into Blackboard courses.
- Making sense of IDEA results
  - Help faculty think about their pedagogy.
  - Appropriate weight in faculty evaluation.
  - Should be based on ELOs and course objectives.
- The timing of IDEA administration
  - End of semester may bias students.

# Next Steps: Circulation of Results

- Report to Faculty Senate
- Report to Provost Council
- Further dissemination options

Sending the survey results to the full faculty.

Posting the results to the Academic Assessment website.

Sharing the results with additional campus populations, such as students.

STOCKTON

# Next Steps: Pilot

To test the effectiveness of online delivery methods, the survey team plans to conduct a pilot at the end of the fall semester 2016:

- 6 classes
- Tenured faculty only
  - Opt out of having results used in student evaluation data.
- Results separated from the regular course evaluations.
- Options for administering the survey:
  - Mobile devices in class, computer lab, kiosks in convenient campus locations, student device outside of class.
