Robert Heinrich, CIO
Linda Feeny, Director of E-Learning
Scott Huston, Director of Computer Services

2016-2017 Committee Activities:

The Senate IT&Media Committee met twice during the 2016-2017 academic year. We were not specifically charged with any issues from the Senate during this academic year. Topics of discussion were brought to the committee from within the committee, and included the following:

- Review of prior year's committee activities.
- Briefing from Bob Heinrich on Stockton's IT Strategic Plan, which was developed by Stockton's Information Technology Advisory Board (https://stockton.edu/information-technology/information_technology_advisory_board.html).
- Discussion of what citation software is currently available on campus.
- Carra Hood was invited to brief the committee on Digication, an e-Portfolio tool.
- Committee member, Manish Madan, presented Project KnowUs, which he's been working on with computer services to add functionality to the campus directory for searching/browsing by research interests/expertise.
