

	Anatomy & Physiology	Introduction to Psychology/General Psychology-Must be the introduction to Psychology course.	Abnormal Psychology	Life Span Development or Human Behavior in the Social Environment-To meet this requirement, the course (or courses) must cover all stages of the lifespan (infants through geriatrics) and various areas of development (cognitive, psychological, physical, and social).	Introduction to Anthropology or Introduction to Sociology-Must be the introduction to Anthropology or Sociology course.	Statistics or Applied Biostatistics-To meet this requirement, the course must cover statistical methods primarily and not research methods or simple math.
